Camden City Green Fair and Community Day

Invitation to Cover/Photograph:

Date: Saturday, July 28, 2012

Time: 11:00 a.m. to 3:00 p.m.

Location: Cooper Commons Park
6th and Washington Street, Camden

Details:

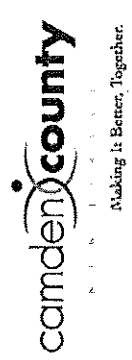

The Camden Green Team is sponsoring a Green Fair and Community Day to promote green concepts in the City of Camden. Residents are being asked to take a “Green Challenge” and learn about energy conservation, recycling, stormwater management, urban gardening and climate change. There will be free food and activities for kids.

“The Camden City Green team has been working on numerous projects over the last few months with the goal of obtaining certification from Sustainable Jersey,” said Freeholder Scot McCray. “The projects they have completed include water conservation education programs, planting rain gardens, rain barrel installations, developing green jobs, tree and woodland management and school and community gardening.”

“The rain gardens in Camden City reduce stormwater from entering Camden's overburdened sewer system, and reduce flooding, sewer backups and sewage overflows in the city during major rain events,” said Freeholder Jeffrey Nash.

Participants include the Freeholder Board, Camden City Mayor and Council, CCMUA, New Jersey 5th District Legislators, CCIA – Buy Local program, NJ Tree Foundation, Camden Smart Initiative, Coopers Ferry, Camden Shade Tree Advisory Board and the Philadelphia Zoo's Climate Change Education Program.

CAMDEN CITY GREEN FAIR AND COMMUNITY DAY
Take the Green Challenge! Join us on Saturday, July 23, 2012 from 11:00 a.m. to 3:00 p.m. in Cooper Commons Park at 6th and Washington Streets in Camden City.

The Camden Green Team is sponsoring a Green Fair and Community Day to promote green concepts in the City of Camden. Residents are being asked to take a "Green Challenge" and learn about energy conservation, recycling, stormwater management, urban gardening and climate change. There will be free food and activities for kids.

The Camden City Green team has been working on numerous projects over the last few months with the goal of obtaining certification from Sustainable Jersey," said Freeholder Scot IlicCray. "The projects they have completed include water conservation education programs, planting rain gardens, rain barrel installations, developing green jobs, tree and woodland management and school and community gardening."

"The rain gardens in Camden City reduce stormwater from entering Camden's overburdened sewer system, and reduce flooding, sewer backups and sewage overflows in the city during major rain events," said Freeholder Jeffrey Nash.

Participants include the Freeholder Board, Camden City Mayor and Council, CCWUA, New Jersey 5th District Legislators, CCIA - Buy Local program, NJ Tree Foundation, Camden Smart Initiative, Coopers Ferry, Camden Shade Tree Advisory Board and the Philadelphia Zoo's Climate Change Education Program.
