

Documentation was submitted to Clough Harbour and Associates LLP for all the Stratford Municipality buildings. Three qualified for the NJ BPU's Local Governmental Energy Audit Program. One of the buildings that did not meet the energy criteria was the Stratford Senior Center.

To replace the HVAC system in the Senior Center, we looked into the direct install program, submitted and received approval for a Conservation Block Grant, for the replacement of the HVAC system in the Senior Center.

The following pages are documents showing we were approved and the invoices from Hutchinson (approved direct install vendor), for the replacement of the HVAC system in the Stratford Senior Center located on 303 Union Avenue.

Dear Energy Efficiency and Conservation Block Grant Program Participant:

Thank you for applying to participate in the Energy Efficiency and Conservation Block Grant Program (EECBG), a New Jersey Board of Public Utilities (NJBP) initiative, managed by TRC Energy Services. The enclosed check represents the full block grant associated with the following project(s).

Application # HU00220EECBG	Technology: Supplemental	Account #: 047014599998
Project Location: 303 Union Ave Stratford, NJ 08084		Approved: 3/1/2011

For questions or further assistance regarding the EECBG Program, please contact TRC at the number below. Program representatives will assist you in exploring or implementing energy efficiency alternatives and incentives available through New Jersey's Clean Energy Program. Visit NJCleanEnergy.com/MUNI for complete details on opportunities for local governments.

Very truly yours,
TRC Energy Services

A. Miller
